

NMCA NetMRI Configuration & Administration

Overview

Develop a working knowledge of configuring and managing Infoblox NetMRI appliances. Understand automated collection of network device configuration information over SNMP and SSH. Learn how to use the collected information for configuration and change management, network policy management (building from an extensive built-in list of established rules and policies) and automated compliance checks and reports, as well as the general configuration and reporting features available in the NetMRI product.

Target Audience

This is a basic-level course for team members who implement and configure or maintain and operate the NetMRI solution.

Course Length

2 days

Prerequisites

Attendees should have a working knowledge of TCP/IP protocols, SNMP and IP networking and a conceptual understanding of fault, configuration change, and performance management.

Style

Lecture, demo, and hands-on lab exercises

Delivery

- Instructor-led
- Virtual instructor led
- On-demand

Max Class Size

12 attendees

Topics

- Overview and Installation
- Network Discovery and Groups
- Virtual Routing and Forwarding
- User Interfaces
- Settings
- Network Explorer
- Switch Port Manager
- Network Analysis and Issues
- Configuration Management
- Rules and Policies
- Jobs and Remediation
- Dashboard and Reporting

Accreditation

NetMRI Configuration and Administration (NMCA) attendance on completion of course.
NetMRI Configuration and Administration (NMCA) accreditation (on-line, open-book).

Training Credits

20
